The beautiful life of Dr. Oliver Wendell Holmes, the eminent scientist and poet, passed peacefully at his home in Boston last Sunday. Thousands who have delighted in his brilliant books will regret to learn of his death. He was 83 years old.

W. W. ASTOR's income is \$8,900,000 per year. On all of this above \$4,000 he pays two per cent income tax. That is, he pays to the support of the Government that protects so much for him, a tax of two per cent, on \$8,900,000, which is \$177,920. Do any of Ohio county's Republicans object to this? If not, how do they like Democratic ideas of taxation?

At the recent State election in Georgia all kinds of combinations were attempted by which to compass the defeat of the Democratic ticket, and the wildest scenes of strength were made by the opposing party or parties. The result was 30,000 majority for the Democratic candidates and the most perfect expression of confidence in Democratic principles and Democratic conduct of public affairs. The same story comes from everywhere.

C. M. KINBLEY, formerly of this county, was some time ago nominated for county clerk by the Republican party of Devene county. He took up the empty honor, but has tired of it and withdrawn from the race. A very wise thing on Mr. Kinbley's part.

The truth is that unless a man is clear out of a job he can ill afford to undertake to defend Republicans to the public eye, for the part of the country. The day that party's destiny is over, the star of its fate has already declined.

For Sheriff, the present efficient officer, Mr. James P. Stevens, ought not to have had any opposition. He is not only one of the best and most correct and competent officers the county ever had, but he is not a partisan, never having offended any but the political questions. He is kind and thoughtful, and official life absolutely above reproach. He has only had the office long enough to become thoroughly familiar with its duties and the people will not be apt to desire a change at this time.

THERE is a small class of fellows in this country who pride themselves upon not going to hear any public speech, whatever its reputation or character. They are the bright ones who know all there is to know about public affairs, and they do not propose to waste their precious time attending upon public meetings. As a rule they go regularly to the polls and vote the Republican ticket, just because their daddies did. In truth they are rapidly becoming the only crowd who do vote that ticket, and it is the hope of party to keep them away from Democratic speakers, as witness the "Champions" disdaining to present himself on such occasions.

After January the first the Superior Court of Kentucky as at present organized will cease to exist, and there will be one court—the Court of Appeals—which will consist of seven judges instead of four as at present. At Princeton, Saturday, Judge John R. Grace, of Trig county, was nominated for a seat in the new court by the Democrats of the First Appellate district. He defeated Judges White, Bishop and Yeaman after 105 ballots had been taken by the convention. He was for a long time judge of the circuit court in our neighboring district and will take to the bench to which he is a posthumous claimant and the first order of legal establishment.

We reside in this country enough here to feel 71,000,000 people, a very large following from all parts of the State.

The contest for the Senatorial promises to be a most interesting one. With Governor Buckner, ex-governor James B. McCreary and the eloquent Joe Blackburn in the race, it will be necessary to a worn-out farmer that they shall not exchange surplus goods of other countries one. The contest will in all probability he fought out where it should

be—in the Democratic convention, which will name the candidates for other State offices.

There has arisen a demand which is almost universal that Senators should be chosen by the people. Undoubtedly this is a good idea, to effect this, by making presidential elections for the place, and thereby virtually taking from the State Legislature all save the formality of ratifying a choice already made. Gov. Buckner favors this plan as set out in his letter accepting the call of the Democratic of Hart county to become a candidate, in which among other things he says:

"The rate which has been applied to us, I trust, is the right one. The friends of his boyhood here are always glad to see Col. Nall, for no man who ever went out from Hartford has done more for the citizens than he has. His children and early mashed were spent here, and now that he appears to the general of Commissioner of Agriculture for this State, our people, without reference to party, are interested in his success. For many years Col. Nall has successfully conducted one of the best agricultural newspapers in the South, and he is one of the most thorough men in his line in the State. He is secretary of the National Saddle Horse Breeders' Association, and is familiar with every detail of the agricultural interest of the State. He will be a valuable addition to the office, for he seeks, his son, his wife, and his long and faithful devotion and service to the cause of efficient agriculture in Kentucky will bring him a support among the farmers which nothing can overcome. When elected, as will be, we promise the people of Kentucky the faith of a people who have known Col. Nall from his childhood, the Sugar Trust—for it was born and nourished under the fostering care of the Republican party—will work with a very bad greed, but they presume too much by far upon public ignorance when they attempt to say that the Democratic party has done nothing for the Sugar Trust."

The County canvass is moving along smoothly enough. The excellent gentlemen aspiring to fill the offices are in the main preserving the very best of good temper and are enjoying their junket over the country.

Mr. E. T. Williams, the Democratic candidate for Judge, is giving Judge John P. Morton, his Republican opponent, some slight trouble. He has a good and honest job of masterful gerrymandering done under his administration. This Judge Morton is taking with more or less complimenting things of Mr. Williams. The contestants are cousins and are excelling quite an interest by their attack at each other. Mr. Robert Reader, the Populist nominee for the same place, is taking small part in the contest but is enjoying himself and making many friends.

The Clerk's race is decidedly lively and interesting. As a campaigner, Rowan Holcomb has had a short time in this county. In addition to a perfect familiarity with the details of the office which he has filled so satisfactorily for the last four years, he knows almost every man, woman and child in the county. He is always good-humored and genial and whilst, he knows all about the general political situation, as his opponent Mr. David Hocker, is rapidly finding out. Mr. Holcomb is making a masterly fight for his party and in a way that can offend even the bitterest parties which may differ with him. He is a true friend to his party, Uncle John Leach is everybody's friend and the two excellent gentlemen opposing him will not be in the race for Assessor. Josh Magen is a ready fighter for the Jailer's place, with everything in his favor. He is a rugged, straightforward, honest man, and the people are going to like him in the which he believes.

Among the other candidates there is nothing being discussed save the personal adherence of each to his respective party. Uncle John Leach is everybody's friend and the two excellent gentlemen opposing him will not be in the race for Assessor. Josh Magen is a ready fighter for the Jailer's place, with everything in his favor. He is a rugged, straightforward, honest man, and the people are going to like him in the which he believes.

## POLITICAL ROUND-UP.

JUDGE MONTGOMERY'S SPEECH  
AT ROCKPORT.

The Situation as Viewed from  
Our Correspondent's Field  
Glass --- Good Work  
of Last Congress.

REPUBLICAN FAILANCES

ROCKPORT, Ky., Oct. 7, 1894.

Judge Montgomery's speech has been the talk of the town. The attendance has not been large. Owing to circumstances it was not at all expected, but the fact that the uneducated masses almost on a par with the educated electors to vote for the President should apply to instructing senatorial electors in the choice of Senators, for the people are the electors, and the electors are the voters, the electors of the people, chosen to represent the people.

The most effective speech was that of Mr. John M. Leach, of Hart county, who was the most eloquent speaker in the room.

The rate which has been applied to us, I trust, is the right one. The friends of his boyhood here are always glad to see Col. Nall, for no man who ever went out from Hartford has done more for the citizens than he has. His children and early mashed were spent here, and now that he appears to the general of Commissioner of Agriculture for this State, our people, without reference to party, are interested in his success. Nall from his childhood, the Sugar Trust—for it was born and nourished under the fostering care of the Republican party—will work with a very bad greed, but they presume too much by far upon public ignorance when they attempt to say that the Democratic party has done nothing for the Sugar Trust.

The Sugar Trust.

What a puny lamentation has gone up, to see from our Republican brethren about what they say the Democratic party has done for the Sugar Trust. Their complaints at anything else would be understandable, but the Sugar Trust is a mere nothing compared with the rest of the world.

The rate which has been applied to us,

I trust, is the right one. The friends of his boyhood here are always glad to see Col. Nall, for no man who ever went out from Hartford has done more for the citizens than he has. His children and early mashed were spent here, and now that he appears to the general of Commissioner of Agriculture for this State, our people, without reference to party, are interested in his success. For many years Col. Nall has successfully conducted one of the best agricultural newspapers in the South, and he is one of the most thorough men in his line in the State. He is secretary of the National Saddle Horse Breeders' Association, and is familiar with every detail of the agricultural interest of the State. He will be a valuable addition to the office, for he seeks, his son, his wife, and his long and faithful devotion and service to the cause of efficient agriculture in Kentucky will bring him a support among the farmers which nothing can overcome. When elected, as will be, we promise the people of Kentucky the faith of a people who have known Col. Nall from his childhood, the Sugar Trust—for it was born and nourished under the fostering care of the Republican party—will work with a very bad greed, but they presume too much by far upon public ignorance when they attempt to say that the Democratic party has done nothing for the Sugar Trust.

The Sugar Trust.

What a puny lamentation has gone up, to see from our Republican brethren about what they say the Democratic party has done for the Sugar Trust. Their complaints at anything else would be understandable, but the Sugar Trust is a mere nothing compared with the rest of the world.

The most effective speech was that of Mr. John M. Leach, of Hart county, who was the most eloquent speaker in the room.

Special meeting of the Hartford Commercial Club will be held at Bowes Hall on October 12th at 8 o'clock P.M.

Such as those people are noted for, for instance, was based on the fact that the club had a day of divine worship and social reunion of the large crowd and those who had worshipped at that place more than half a century ago.

West Providence Dedication. Fully two thousand people assembled at West Providence Sunday morning to witness the dedication of the new Baptist Church. Dr. J. M. McElroy, pastor, preached the dedicatory sermon in his usual pleasant and able manner. Dr. Sutton as such good people are noted for, for instance, was based on the fact that the club had a day of divine worship and social reunion of the large crowd and those who had worshipped at that place more than half a century ago.

New Game Law. Hunters should be in mind that small, partridges or pheasants cannot be killed until the 15th of November, the last Sunday in October, extending the time from the 20th of October to November 15th. For the first day of January 1st, the season for grouse begins November 15th, there is a penalty for catching, killing, pursuing or having in possession any of these birds, after being caught in traps from \$100 to \$200, depending on the size of the game.

Mr. J. C. Pfeiffer, of Owensboro, an expert electrician, has been here for some days looking after a proposed electric light plant. Such an enterprise would be a great success if the power necessary to run the machine is furnished for two-thirds of the year by water, and fuel for the operation of an engine the rest of the time. It is not improbable that such a plant may be supplied with electric lights.

At the courthouse in Hartford to-night, Eld. S. F. Fowler, of the Christian Church, will begin a series of meetings. Eld. Fowler has won considerable distinction in the public schools and has been the means of saving many souls. It is hoped that his efforts in Hartford in behalf of the Master will be crowned with success and that he will be given an encouraging reception. We hope for our town that the Master has always been renowned.

Some of the boys are going up to go hunting in a few days. Better wait awhile, boys, and take a look at the new game law. It is lawful to catch or kill deer, turkeys, rabbits, squirrels, and other game animals from January 1st to November 15th of each year, or have in possession any such bird after it is killed. The fine is \$5 to \$10 according to the size and half of the fine goes to the person who informs.

The light from the sun is a blessing, and the world is worthily rewarded for its many virtues. Mrs. Hale's maiden name was Mrs. Mary Elizabeth, of Louisville, Ky., born Oct. 10, 1859, at Northport, Ala., educated at the University of Alabama, Tuscaloosa, Oct. 10, 1880. She was of the race of true Christians, women whose character was spotless, whose manners, manners, were winsome and charming, whose life was worthy and creditable to her race.

## SERMON ON "WOMEN."

DELIVERED BY ONE WHO KNOWS ALL ABOUT THEM.

She is the Natural Helpmeet of Man, who could not Possibly Exist Without Her and He.

"WOMAN'S RIGHTS" TALK

(By Miss Tabitha Primrose.)

My dearest male and female squalidines! my native country, which is mine in which, I feel compelled to speak to you on this occasion on the subject of women, a subject, hein't that I am a woman myself? I have given much attention to man, my dearest children, to man, my dearest husband, to man, my dearest son, and if I do it in what and how much? Was he the first creature? He was, my dearest, but what does that prove? Man made man, and woman made woman; man was appointed to the making of a better and more finer being, of whom I am a sample. Nature made man, but in a brief space of time, he could make himself alone, so he made a woman to take care of him; that's why we were created; but seeing all the trouble we've had, I don't know what would it have been if he had not made a woman; he hadn't made a man at all. Imagine, my squalidines, sisters, Adam before Eve was made. Who sewed on his shirt buttons? Who washed his clothes? Who mended his clothing? Who took care of him? He must have boarded out and eat hash. But when Eve came along, her gentle hand soon had him in a clean shirt, and he was a dandy. A real dandy, he was. His mustache, his alibis, and his whiskers, he was. He had his home in order, his alibis and dressing gown ready, and after supper he smoked his meerehans in peace.

Man, cruel-hearted man, asserts that Eve was the cause of his expulsion from the Garden of Eden, and has cast her out. And oh, my squalidines, it's true, too. What of it? It proves, truly, her goodness. Had Adam plucked the apple in his hand, he might have eaten it at home, but he would have gobbed it all up; but Eve, angel that all we are, thought of him and went havers with him. Secondly, it was the means of good anyway, it introduced him to us, and we were separated then while they still had love for each other. I appeal to the stern sex to-night. Would you, oh, could you, young maidens, ever be so unkind as to let him go? We are not. We are desirous of the half lot. We ain't allowed to make stumps or talk in partisanship. Is it right? True, we ain't as yet learned in the ways of the world, but we may know who they are who think they are voting for, and how many stump speakers know what they are talking about. I demand a ballot; we want to be a part of the political process. Let us sit in Congress among the other old grannies. I want to demonstrate my fitness for governing by coming home elevated on election night. I want to be a part of the political process. I demand to be equally with man, but from which masculine jealousy he has thus far excluded me. Week! I once knew a female friend who had a desire to sit in Congress among the other old grannies. I want to demonstrate my fitness for governing by coming home elevated on election night. I want to be a part of the political process. I demand to be equally with man, but from which masculine jealousy he has thus far excluded me. Week!

Maternality thus far in the world's history has been the most important of all. I have always had strength of mind to resist all propositions to my enslavement. I had too much respect for myself to make myself a slave to man. Once indeed I might have done it, but I never did. I was accidented in the world saved a man. A young man, in my younger days, when the bloom was on the peach, ere sleep less taught me the meaning of wrong of my life, had been captured by a gang of blushing cheeks, a young man come to our house and converted us all to his ways. He was my friend and, oh, my master, and he had me to do his bidding. He had me to be his slave, to be his "yes," and I'd bear a wad of blaches and a moulder of stockings all my life. But fate saved me. He didn't ask me the right questions, and he was lost. There have been women in the world who have done somethin'. There was the Queen of Sheba who was exiled only by Solomon, and all that surpised her, he had him to do his bidding. Blame Holomont's heart, I'd like to see him do it now. With the sun hours they wear, where could he find a home big enough to hold all the blaches and the blaches? A wad on each side of the bed, and put another story on top of it. And how could he dress at them times I need him? He'd live in his Congress save seven intermissions.

There was John A. Dixie, who whished the English, who was said of New Orleans, which isn't the same as Noah's ark, for that was made of sopher wood, besides, the latter was broken within and pitched without. Then

there was Queen Elizabeth, who was the Virgin Queen, and Mrs. Spinthorne. There's Lucy Stotes and Anna Dickinson, there's Lassette Motte and Dora D'Orsay, who were poor women who seem to be, and who are, the best we can make of them. And that's what all we want to, be as near man as possible.

SUGGESTIONS FOR FARMERS.

J. E. M., Sunny Side, Texas.—I would be very much obliged if some reader would give me a few hints in preparation for the time to take to make a greasier taste, so as to make her more agreeable to smoke and chew. I have raised a lot of nice tobacco this year and will have a good crop next year, but I don't know what to do with it. I have a good way to make it more agreeable to smoke and chew. I have a pure cinnamon should throw it in and she'll pleasure about all care and sorrow over.
